

Stretch Films
Turkey

Better Packaging
With Technology.

Dunya Stretch Film Turkey

Dünya is a supplier of stretch films for a variety of demanding food and industrial applications.

The company's own plant is more than 4,000 square meters, and there are more than 100 employees. It specializes in R&D, production and sales of various specifications of stretch films.

The products are of high quality and stable, with complete varieties and styles. With years of industry experience and continuous R & D and innovation, the company has achieved fruitful results in the packaging industry.

Continuously introducing the latest equipment and advanced technological plastic film processes has greatly improved the company's production capacity and manufacturing level and is based in Istanbul.

Moreover, our extensive background in a variety of industries enables us to work closely with customers to provide specific solutions to their particular applications.

Benefits Of Using Our Stretch Films

Reliable Long-Term Partner

Dunya is a financially solid family-owned company founded in 2004. We have modern production facilities and quality assured processes, offering excellent customer care.

Experienced Professionals

We are experts with over 50 years experience in plastic package industry. We have knowledge of quality made for a wider range of applications in various stretch types and an excellent R&D team to support for quality.

Reliable And Fast Deliveries

You get our products when you need them. This brings cost-savings, helping you optimize your operations.

Reliable, Certified Products

Our stretch films are designed and tested to serve a broad range of Food and Industrial applications.

Large Product Range

With Quality-Assured Manufacturing

We have dedicated in-house production facilities with state-of-the-art plastic extruder technology in Turkey. Our factories have received ISO certification and undergo regular internal and external audits.

We are actively involved in auditing, certification testing, and continuously improving our work processes, and we adopt new products to make the human activities in our production chain more efficient.

For our customers, this translates in shorter leadtimes and greater flexibility in manufacturing and logistics.

Our product range is very large and we are serving products to Food and Industrial usage like machine pallets.

Industrial Grade Stretch Film

High Tensile Stretch Film, We Call "Power Film"

We are manufacturing high quality stretch films for industrial applications like usage of automatic palletizing machines.

Our machine stretch film rolls secure pallets in transit and work with all wrapping systems. This easy to apply machine film protects fragile products of almost any size and shape with a tear-resistant layer. It can also prevent box contents from moving during storage or shipping.

Weights and limits:

Strength is measured in micron thickness.

Our industrial tear-resistant rolls range from 10 to 50 microns.

Tensile range up to %300

Package:

6(six) Pack Ctn Boxes

Private Label Package

Width and Length:

Width : 100mm to 750mm

Length : 100m to 1400m

Available also in Jumbo Rolls.

Food Grade Stretch Films

For Your Needs in Food Application

We offer you high-quality standard and customer-specific enclosing food grade stretch films made from high grade virgin raw materials. Our stretch films is developed for demanding food application environments requiring ah igh degree of protection and extreme durability.

Benefits Of Using Our Enclosures:

Wide Range of Sizes

Customized, like 300m, 400m, 500m, 1000m, 1500m, etc

Our Food Grade Stretch Film Features

High transparent
High viscosity
High tensile stretch
No discoloration
Excellent Puncture Resistance,
Excellent Tear resistance
9 to 16 Microns
Private Label Package

Hand-Use(Manual) Stretch Film

Easy Operate Compact Hand-Use Stretch Films

Expanding For Your Benefit

High quality and easy to use compact type stretch films are providing solutions for easy and fast wrapping without any tearing and bruising during the wrapping.

We offer safe and easy to use hand-use stretch rolls for end-users and companies.

Dunya Stretch is your choice for safety, functionality and efficiency.

Weights and limits:

Strength is measured in micron thickness.

Our industrial tear-resistant rolls range from 10 to 50 microns.

Tensile range up to %150

Package:

6(six) Pack Ctn Boxes

Private Label Package

Width and Length:

Width : 100mm to 750mm

Length : 100m to 1400m

Available also in Jumbo Rolls.
